Challenge tasks

- **Descriptive writing.** I would you like to write about a chosen mini beast using describing words (adjectives) to add detail to your sentences. Please see my video on your seesaw journal to support this learning.
- **High frequency Words.** Please see Year 1/ Year 2 high frequency words uploaded onto Seesaw and Purple Mash. Please practice these as spellings by making into a game (select 6 words). This could be as word hunt in books, writing the words in chalk outside, write as rainbow words going over in different colours or word splat (say the word, run to it and splat).
- **Life cycle of a bee comprehension.** See text and questions on 2do:/ Seesaw activity: Life cycle of a bee comprehension
- Listen to Chapter 4 of our class book, 'The Secret Garden' on your Seesaw journal.

Health and Well-being

This week I would like you to try different types of jumps. You will need to work in a flat, open space to try these. Please see the video on your seesaw journal where I talk through the different jumps.

Home Learning Journey Week Beginning 11th May 2020

Expressive Arts

I hope that you managed to get a closer look at some mini beasts this week by using your tumble trap. Mini beasts, like plants go through a life cycle. Please see life cycle of a bee comprehension activity to support your learning on seesaw or Purple Mash.

For a mini beast of your choice, I would like you to creatively display its life cycle Research the life cycle first before you start your artwork. Here are some ideas on how you could present your work.

Here is a selection of challenges to work through this week. These can be used as a guide and can be adapted to suit your own interests.

Keep in touch with me on Purple Mash/ Seesaw by sharing the activities you have completed.

Humanities

Natural and Man-made sources of light

Outside the sun is what we call a natural source of light. The sun was not made by a person it is a natural, ball of fire which gives us daylight and warmth.

When in my house at night and it goes dark, I switch on a light. The light bulb is what we call a man-made or artificial source of light. The lightbulb is made by a person and is powered by electricity. Watch this clip <https://www.bbc.co.uk/bitesize/clips/zw9rkqt>.

What sources of light did you see?

Complete the 2do and Seesaw activity: Light sources.

Mathematics and Numeracy

This week I would like you to continue to practice your money skills

Challenge tasks

Please see my video on your seesaw journal, giving change.

Year 1- find totals and give change from 20p

Year 2- find totals and give change from multiples of 10

- In your **toy shop** this week I would like you to practice giving change. Add up the total, find the difference to give the correct change.

You will need plastic or real coins or see Purple Mash 2do:coins to print and cut out paper coins.

- Complete **Purple Mash 2do: Calculating change**
- **Seesaw activity: How much change?**

Visit the link to practice giving change. Select- mixed coin- and select 20p (Year 1) or £1 (Year 2)

- <https://www.topmarks.co.uk/money/toy-shop-money>

Science and Technology

Buzz! Buzz! Buzz!

As the weather gets warmer, I have started to see the bees out in the garden. I have noticed that they enjoy landing on flowers. See if you can spot a bee on a plant this week and try to capture a photograph. Don't get too close though.

Big Question: Why do bees land on flowers?

Complete the seesaw activity: all about bees

Plant investigation update: Please see my updated pictures from our plant investigation. Why is the plant in the hallway leaning towards the front door do you think?

Cymraeg

Beth wyt ti'n hoffi? What do you like?
Can you tell me what you like to do/eat in Welsh?
