Science and Technology

With a grown up, use the internet to research your favourite farm animal from the story. You could use non-fiction books too, such as an encyclopedia, if you have access to anything like this. How many facts can you find out about this animal? (You might even be able to see some of these in your area) You might find the following links helpful:-

<https://easyscienceforkids.com/fun-facts-for-kids-video/>

You could make a book, a poster, draw a picture and send a video about what you have found out. Tell me the information you found out anyway you like.
